

Anti-Terrorism and Hotel Security Course

Accra, Ghana

15-16 July 2019

Background

On 15-16 July 2019, the S2 Institute, in conjunction with the Security and Intelligence Network Africa (SINA) will be presenting a two-day, 16-hour Anti-Terrorism and Hotel Security Course in Accra, Ghana.

The S2-SINA Anti-Terrorism and Hotel Security course is a 2-day program designed to instruct security professionals in strategies and tactics for protecting hotel and hospitality facilities against terrorist attack. The objective of this course is to prepare security personnel for assignments that require planning security for hotel facilities or providing physical protection for hotel facilities against terrorist attack.

The information presented in this course reflects best practices in anti-terrorism as may be applied to a wide range of commercial facilities. The strategies and tactics presented in this course are based on the instructor's decades of experience in protecting facilities against terrorist attacks, critical evaluation of hundreds of terrorist incidents, and analysis of methods for managing terrorism-related problems pioneered by organizations ranging from the London Metropolitan Police to the United States Army.

Who Should Attend?

Security Directors and Managers, General Managers, and Risk Management Professionals employed by hotel and hospitality companies | Government Internal Security Professionals supporting the interests of national tourism and hospitality Industries

Learning Objectives

Students attending the S2-SINA Anti-Terrorism and Hotel Security course will acquire the following skills and competencies:

Recognizing risks associated with contemporary terrorism including an in-depth understanding of contemporary terrorist modus operandi

Identifying general security requirements essential to reducing terrorism related risk

Implementing Operations Security (OPSEC) and protective counterintelligence principles to impair terrorists' ability to gather target intelligence, including:

- Implementing appropriate sound information security principles
- Recognizing possible attempts to collect target intelligence
- Documenting suspicious activity
- Investigating and analyzing trends of suspicious activity

Physical security and emergency readiness infrastructure for hotel facilities

Behavioral profiling and recognizing pre-incident indicators

Search and screening methodology for use in high-risk applications, including:

- Implementing facility access control procedures
- Questioning entrants and identifying behavioral signs of deception
- Recognizing indications of falsified or altered identity documents
- Safely searching hand-carried objects at access control points
- Safely searching vehicles at access control points
- Using technical aids for conducting search and screening

Recognizing indications of terrorist attack or impending terrorist events.

Safely responding to terrorist incidents and facility-level security response planning:

- Bomb threats
- Suspicious hand-carried objects
- Suspicious vehicles (Possible vehicle bomb deliveries)
- Post-Blast Response
- Terrorist Armed Assault Attacks

Schedule and Course Outline

10 June 2019

09:00 – 10:30	Dynamics of Terrorism and Hotel Security
10:30 – 10:40	Coffee Break
10:40 – 11:15	Security Planning and Hotel Facilities
11:15 – 12:00	Operations Security and Protective Counterintelligence
12:00 – 13:00	Lunch
13:00 – 14:00	Operations Security and Protective Counterintelligence
14:00 – 14:45	Physical Security and Hotels
14:45 – 15:00	Break
15:00 – 16:00	Physical Security and Hotels (Cont.)
15:50 – 16:00	Short Break
16:00 – 17:00	Physical Security and Hotels (Cont.)

Day One Outline:

Dynamics of Terrorism and Hotel Security

- Current Trends in Terrorist Targeting
- Terrorist Attack Methods & Hotel Case Studies
- Terrorist Planning and Execution Phases

Security Planning and Hospitality Facilities

- Risk Management and Anti-Terrorism
- Protective Strategy and Soft Target Realities
- Hotel Security Risk Management Strategy

Operations Security (OPSEC) and Protective Counterintelligence

- Terrorist Intelligence Requirements
- Terrorist Intelligence Collection Methods
- Protective Counterintelligence/OPSEC
 - Information Security
 - Protecting Guest Information
 - Employee/Contractor Screening & Monitoring
 - Suspicious Activity Recognition and Employee Training
 - All Employees
 - Front Desk Staff
 - Bell Staff
 - Housekeeping
 - Maintenance
 - Security Officers
- Suspicious Activity Reporting & Analysis

Physical Security & Access Control

- Physical Security Theory
 - Physical Security System Functions
 - Performance Definition
 - Common Design Flaws
 - System Design Guidelines
- Physical Security and Public Environments
 - Risk Based Physical Security Design Strategies
- Physical Security Components
- Intrusion Detection Systems
 - Area Surveillance
 - CCTV
 - Stationary Posts
 - Mobile Patrols
 - Intrusion Indicators
 - Bomb Delivery indicators
- Barriers and Hotel Facilities
 - Role of Barriers in Mitigating Consequences in Public Environments
 - Conventional Barriers
 - Facade and Entrance Doors
 - Lobbies
 - Indoor Controls
 - Guest Rooms and Safe Room Criteria
 - Vehicle Barriers
- Emergency Egress Considerations
 - Exits and Signage
 - Outdoor Considerations
- Access Control and Hotels
 - Planning Considerations
 - Access Screening Technologies
 - X-Ray Based Technologies
 - Explosive Trace Detection

- Nuclear Detection Systems
- Explosive Detection Canines
- Human Entry Screening
- Guest/Patron Profiling
 - Identity Document Examination
 - Behavioral Threat Indicators
- Hand Search of Personal Objects
- Vehicle Entry Screening

11 June 2019

09:00 – 10:30	Blast Mitigation Design
10:30 – 10:45	Coffee Break
10:45 – 12:00	Response to Terrorist Attacks
12:00 – 13:00	Lunch
13:00 – 14:30	Response to Terrorist Attacks (Cont.)
14:30 – 14:45	Break
14:45 – 16:00	Physical Security and Hotels (Cont.)

Day Two Outline:

Blast Mitigation & Facility Design

- Blast Mitigation Strategies
- Minimizing Fragmentation Hazards
- Blast Walls
- Structural Design
- Façade Construction & Fenestration
 - Wall Reinforcement
 - Glazing Systems
 - Additional Protective Options
- Emergency Access & Evacuation Requirements
- Protection of Building Subsystems

Response to Terrorist Incidents

- Emergency Response Principles
 - Incident Response Scenarios
 - Response Priorities
 - Incident Command Structure
 - Emergency Communications
- Response to Armed Assaults
 - Emergency Notification
 - Immediate Response for Protecting Patrons
 - Preparations for Hostage/Barricade Situations ('Mumbai')
- Response to Suspicious Objects
- Suspicious Vehicle Response
 - Initial Alert & Refuge
 - TSWG Evacuation and Refuge Guidelines
 - Refuge Procedures
 - Evacuation Procedures
- Post-Blast Response
 - Types of Post-Blast Scenarios
 - Localized Bombings
 - Characteristics of Localized Bombings
 - Localized Response Procedures

- Conventional Weapon of Mass Destruction Incidents
 - Characteristics of CWMD Incidents
 - CWMD Public Safety Response
 - CWMD Response Scenario
 - CWMD Facility Response Guidelines
 - Important Safety Guidelines
 - Post-Incident Recovery Issues

About the Instructor

Craig S. Gundry, PSP, CPS, CHS-III

Craig Gundry is the S2 Institute's lead instructor for anti-terrorism subjects and the Vice President of Special Projects for Critical Intervention Services (CIS). Mr. Gundry is responsible for directing CIS consulting and training projects pertaining to terrorism and critical infrastructure security, including the development of doctrine and training for the CIS Anti-Terrorism Officer Division.

Prior to joining CIS, Mr. Gundry was the President of Palladium Media Group, a company specializing in training and consulting on explosive, chemical, and biological terrorism. Mr. Gundry's expertise in anti-terrorism began as a specialist in force protection and anti-terrorism with the United States Army.

Mr. Gundry is the author of the acclaimed Bomb Countermeasures for Security Professionals CD-ROM and numerous publications on terrorism-related topics. Mr. Gundry is also a court-qualified expert witness on physical security and risk management and provides frequent expert commentary on terrorism and weapons of mass destruction issues for news media organizations including Al-Jazeera, BBC, CNN, The Blaze, and Fox News Network.

As an instructor, Mr. Gundry has been training security and public safety professionals in terrorism-related issues for over 17 years. His previous students have included over 3,000 security professionals, facility managers, military personnel, police officers, and federal officials from over 50 nations.

Location and Lodging

The venue site is located in central Accra. For security reasons, the specific location of the course and hotel recommendations will be provided to registered attendees after confirmation of enrollment and two weeks prior to the course.
